As you may be aware, on March 25, 2019, we announced the execution of a merger agreement between Cousins Properties and TIER REIT. A separate press release was issued and the investor presentation with the related conference call transcript regarding the proposed transaction were posted to both company’s websites.

We filed with the SEC on April 19 a registration statement on Form S-4 and includes the preliminary joint proxy statement and perspectives regarding the proposed transaction. The registration statement has not yet become effective. A definitive version will be mailed to Cousins and TIER’s stockholders when it is available. You should review the definitive proxy statement and other materials filed with the SEC carefully when they become available as they will include important information regarding the proposed transaction, including information about certain of the directors and executive officers of Cousins and TIER that may be deemed to be participants and the solicitation of proxies with respect to the proposed transaction. Information about each Cousins’ and TIER’s directors and executive officers are contained in our respective filings with the SEC and will be contained in a definitive joint proxy statement and prospectus.

This call will focus on our second quarter results, and we request that you confine your questions and comments to each results and not the announced merger.

I would like to provide an update on our pending merger with TIER REIT. We filed our preliminary registration statement last Friday and continue to expect to close the transaction by the third quarter of 2019. The integration planning and preparation is on track and progressing well. Overall, we remain extremely enthusiastic about the deal.

Let me remind you of the strategic merits. First, our highly complementary portfolios on a combined basis represent an unmatched collection at trophy office properties balanced across the premier Sunbelt markets. Next, the combined company will have exceptional growth and value creation opportunities going forward including an attractive development pipeline, strategic land sites, and below market in-place rents. Lastly, we believe that the transaction will be accretive over the long term to both NAV and FFO as we realize value from TIER’s significantly pre-leased development pipeline and benefit from \$18.5 million of anticipated immediate G&A synergies. Importantly, we are able to execute the transaction while retaining a best-in-class balance sheet which provides financial flexibility and capacity for future growth. In closing, we had a terrific quarter of Cousins. We announced a compelling transaction with Norfolk Southern, announced the transformative merger with TIER REIT and delivered fantastic operating results. Before turning the call over to Richard, I want to express my thanks to the teams at both Cousins and TIER for their tireless work and effort. It is recognized and appreciated.

Okay. That’s helpful. Last one for me. Colin, you guys have done a great job of sourcing development opportunities recently, and now obviously, you guys have a lot to digest with the TIER deal. Can you talk about your ability to continue to focus on taking advantage of investment opportunities during the TIER process, or maybe should we expect a bit of a pause in your investment activity in kind of the legacy Cousins

portfolio as you guys get this transaction under your belt?

Colin Connolly

President, Chief Executive Officer & Director, Cousins Properties, Inc.

Well, to be clear, as we look forward to the TIER transaction, a number one priority for us is integration, integration, integration, and to do that thoughtfully, to move that opportunity, strategic opportunity forward, and we've got great experience with that process given the Parkway transaction just a couple of years ago. So, I'm confident that our team will be able to accomplish that integration and do so in a timely manner consistent with the timeline synergies we've laid out. But we've got a fantastic team here at Cousins both on the development, investment and asset management side that is certainly able to continue to take advantage of attractive development or acquisition opportunities that come our way. So we'll continue to as we've said in the past, focus on demand-driven opportunities and there we're in a terrific spot that there's plenty of demand in the Sunbelt and if this arise and intersect with our strategic land parcels we'll be we'll be ready to capitalize on this.
